FOLDING

Folding and unfolding a treadmill has never been easier. With the EZ Drop Folding System, just release the locking mechanism, gently pull back and let the treadmill go. The EZ Drop system does the rest.

EXTRA STABILITY

The unique isolated frame folding system separates the console and console masts from the main treadmill frame allowing the console to remain stable while in use.

INTUITIVE CONSOLES

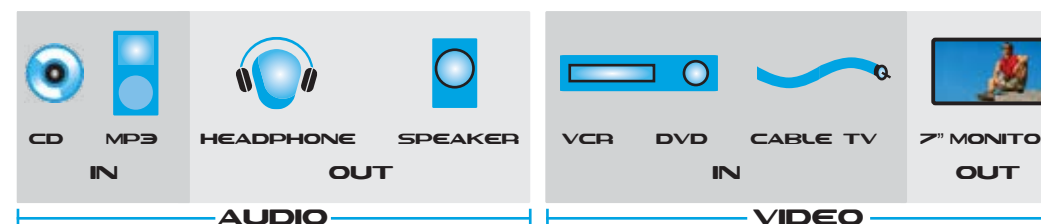

TEKK consoles allow you to quickly and easily get your workout started.

MOTIVATION

Enjoy the stunning picture quality of the integrated 7" flat panel LCD display and the high quality sound as you enjoy working out on your TEKK2i treadmill.

The TEKK2i electronics support MP3 players, Digital Video with Integrated A/V Input jacks on the back of the display console and cable or television with the built in cable jacks on the bottom of the frame.

PERFORMANCE

The TEKK2i includes a 2.5 hp Continuous Duty Motor, 20" by 56" running surface, and 2" precision ground tapered rollers to ensure the performance you need to meet the most demanding workouts.
